

# The Crown Jewel of coverage: Comprehensive HVAC protection

When it comes to protecting their home, your clients want coverage that's Comprehensive, Flexible, and Convenient. 2-10 Home Buyers Warranty (2-10 HBW) has exactly what they're looking for.

With 2-10 HBW's incredible new product, you can **provide the industry's most comprehensive HVAC coverage**. That can give your clients solutions when their most complex and expensive system breaks down.

## What "Most Comprehensive" means

Current with 2023 EPA regulations!

### SEER matching comes Standard.

With 2-10 HBW, your clients can reduce surprise bills when federal standards require replacing an eligible companion system.

### Unlimited refrigerant recapture.

Available with Supreme coverage, this helps minimize the costs when your clients must convert their system to an alternative refrigerant.

### No aggregate trade limits for Buyers' Heating or A/C.

Give your Buyers peace of mind that their HVAC system has protection for covered breakdowns.

### Refrigerant recharging comes Standard.

Although federal regulations often require alternative refrigerants, 2-10 HBW continues to provide unlimited refrigerant recharges.

**Seller Coverage includes heating**

On top of being complimentary,\* Seller Coverage includes protection for heating systems at no extra cost. Others may charge for it, but not 2-10 HBW!

## Why SEER matching and refrigerant services matter

- **EPA regulations** for SEER changed in 2023.
- **Incompatible systems could fail**, and those failures are expensive.
- **Refrigerants keep getting banned**, making recharges difficult and expensive.

## Give your clients the peace of mind of the most comprehensive HVAC coverage on the market.

- Evolves with EPA regulations
- Offers SEER matching, regardless of HVAC age\*\*
- Provides unlimited refrigerants that are current with regulations.
